

TMN Tools is a part of TMN Crew.

TMN Crew supplies skilled, qualified staff for contractors in the construction and landscaping industries and green care. We work with some of Denmark's top machine operators, sewer and drain, workmen and landscape gardeners and we are capable of handling both short and long-term assignments for contractors, machine providers, businesses and local councils.

As our customer, you are given access to a professional labour force that you can adapt to suit your needs from day to day. This flexibility means increased profitability for your organisation and allows you to tender for major assignments at short notice.

The tool packages offer you swift, flexible access to the tools your staff need on site. You save time and are free to focus on handling the assignments in the best possible way.

TMN Tools reserves itself against print errors and price changes. All prices are listed ex. VAT. Please see www.tmncrew.dk for our terms and conditions.
